REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the instantly claimed subject matter is directed to treating ulcers, Zollinger-Ellison Syndrome, and gastroesophageal reflux disease with the administration of a therapeutically effective amount of hydroxylansoprazole whereas the prior art reference of Pearce et al. teaches that the metabolite of 5-hydroxylansoprazole, which is from the compound of lansoprazole, is not pharmacologically active, (see page 806 of Pearce et al.) and Inatomi et al. specifically teach that the lansoprazole metabolites, namely 5-hydroxylansoprazole barely inhibited the ulcers and furthermore state to the skilled artisan that the antisecretory and antiulcer effects by lansoprazole are mainly attributed to the compound of lansoprazole and not by its metabolites. Clearly, these prior art references clearly provide the skilled artisan with motivation and incentives not to use the metabolites of lansoprazole for the treatment of ulcers, Zollinger-Ellison Syndrome, and gastroesophageal reflux disease.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
